

## HEALTHY COMMUNITY GRANT PROGRAM: GUIDELINES

### PREFACE

Peace Arch Hospital & Community Health Foundation (PAHF) was incorporated in November 1988 as a BC non-profit charitable organization. The organizations mission and vision statements are as follows:

**MISSION:** To raise funds, advocate, and support initiatives to enhance the hospital campus and the health and wellness of our community.

**VISION:** To lead the way in achieving the healthiest community possible.

### PURPOSE

The Healthy Community Grants program (formerly known as “Because People Matter”) founded in 1999, was created to support the Peace Arch Hospital Foundations (PAHF) mission to raise awareness and enhance health and wellness in our community. Since inception, over 175 grants have been awarded, granting over \$2.8 million dollars. Applications are accepted twice a year, and are reviewed and assessed by a committee comprised of representatives from Peace Arch Hospital Foundation, its Board of Directors and community members representing the City of White Rock and City of Surrey. This granting program offers financial support to viable projects, programs, and initiatives that enhance the health and wellness for those living in the White Rock South Surrey area; to assist the Foundation in creating the healthiest community possible.

### GRANTS

#### Neighbourhood Grant

Neighbourhood grants are short-terms grants to assist individuals and community groups to connect and engage residents through health and wellness activities – because change happens one step at a time.

#### Community Grant

Help build a better tomorrow. Community grants are multi-year, big-picture projects to assist in shaping the “healthiest community possible”. This grant values innovation, collaboration, and out-of-the-box thinking from community organizations looking to implement large scale projects.
