29	30	WR/SS Community Action Team International Overdose Awareness Day 5:00pm			Farmers' Market	

A farmers' market is a place where you come to learn about healthy food. It's a meeting place to connect with friends, family and neighbours. It's a springboard for local farmers to introduce their wares to new audiences, and it is a celebration of community and the bounty of our land. People come to farmers' markets week after week for many reasons – the community gathering experience, the opportunity to talk directly to farmers, and the reassurance that they are eating nutritious and ethically sourced food. Whatever the reason, there is something magical that happens at a farmers' market.
